Keywords in this video:

Online investment platform, founded 2014, Canada, Michael Katchan, Power

Core Concept: wealthsimple is a canadian online investment platform founded in 2014 by michael katchan and others. it has grown significantly, with the power corporation of canada now owning 55 % of the company. wealthsimple initially offered a robo - advisor service called wealthsimple invest, which allows users to select a risk level and have an algorithm manage their investments. the platform has since expanded to include wealthsimple trade, a self - directed investment platform with commission - free trading ; wealthsimple cash, a high - interest savings and spending account ; wealthsimple tax, a tax filing software ; and a mortgage product.

Point: wealthsimple ' s products are organized into three tiers : core, premium, and generation, each with different benefits and interest rates. the platform offers a range of investment account options, including tfsas, fhsas, rrsp, rrsps, rrifs, liras, and non - registered accounts. it also provides joint account functionality and various perks and tiers for premium members.

Point: the wealthsimple app and desktop versions are user - friendly, with simple language and an intuitive interface. the platform offers features such as dividend reinvestment, automation, and the ability to purchase fractional shares. however, it does not support norbert ' s gambit for currency conversion and is not available to non - residents of canada.

Point: the sign - up process is straightforward, and the app provides an overview of investments, account types, and transaction history. users can easily add accounts, transfer funds, and set up automations for deposits and investments. the app also includes a discover page for researching stocks and etfs, a search function, and a profile section for managing account details and customer service requests.
